A Murder Most Fowl: The American Crow

Saturday, December 19th: 10:00am – 11:00am

Do you know crows are among the most intelligent birds in the world? They are complex problem solvers that form tight-knit communities ominously called “murders.” Come explore this fascinating and impressive creature with us. We will learn how crows live, behave, adapt and survive even in the depths of winter. We will also discuss how different cultures have viewed crows throughout history, from Native Americans to Europeans, to modern Americans.

This all-ages program follows a portion of the Heart Healthy Trail and meets at the Interpretive Center in the headquarters parking lot. **Free and open to the public!** Rain, snow, or icy trails cancels. For more information call (508) 866-2526.
